

# SAP IS-U Academy

## Are you ready to pave the way for a green energy future?

Take on real-life challenges where you get to drive the digitalisation of the energy sector. You will be mentored by leading experts to unleash your creativity and rise to the challenges of key stakeholders – from large corporations to municipal utilities and end consumers.

We truly believe that giving you the space to learn by “trial & error” sparks your innovation. This is your chance to reshape the energy sector by developing cutting-edge software platforms – you’ll get to work with other talented students in top-notch offices and blow us away with the application of new concepts.

## Is this you?

Fluent in **German and English**, you either have SAP experience as key user or in consultancy (1 year).

You are looking for a **full-time** learning experience that will take your SAP career to new heights.
