

Dear Sir or Madam

We are pleased to announce the launch of the recruitment process for the **Summer School 2026: *Biometrics and Artificial Intelligence***, which will take place on 06–19 July 2026 at the Faculty of Computer Science, Białystok University of Technology, Poland.

The programme offers an intensive 80-hour training course (lectures and practical classes) conducted by an international team of lecturers and is aimed at students and doctoral students of computer science, electronics, physics, mathematics, and related fields. It is open to foreign students and doctoral students in technical fields such as computer science, electronics, physics, and mathematics.

Participants will receive financial support, including travel funding, accommodation and living allowance, and a scholarship.

The recruitment process is multi-stage. The application deadline is 13 March 2026.

Before applying, please carefully read the instructions for candidates and all regulations available at [project website](#).

We encourage all eligible candidates to apply.
